P R O F I L E

Aspiring Software Engineer with a solid foundation and expertise in JavaScript, TypeScript, ReactJS, NextJS, NodeJS, Tailwind CSS, Bootstrap, and Material UI. Highly motivated to apply my knowledge to real projects and contribute to software development. Eager to build responsive, user-friendly, and high-quality interfaces as part of a collaborative team.

W O R K   E X P E R I E N C E

Karsaaz Solutions :

January 2025 - Continue   (Front End Development - Junior Developer)

- Currently working on an ERP system, developing responsive and user-friendly interfaces using ReactJS, Tailwind CSS, and Material UI.

- Collaborating with the backend team, leveraging FastAPI for seamless API integration.

- Utilizing Redux for efficient state management and ensuring smooth functionality across components.

- Building reusable components to streamline development and enhance efficiency.

Xenasys Pvt. Ltd :

October 2024 - December 2024   (Front End Development - Internship)

- Developed 10+ responsive and interactive screens for the Franchise Management System (FMS) using ReactJS, Tailwind CSS, and Material UI.

- Contributed to the development of a live project, ensuring high standards for user experience and interface consistency.

- Adapted UI components to reflect evolving project requirements and user feedback, contributing to an agile development environment.

DevLogix :

July 2024 - October 2024   (Front End Development - Internship)

- Developed responsive, user-friendly interfaces for the HR Management System using ReactJS, Tailwind CSS, and Material UI.

- Collaborated with the team from project inception, contributing to requirement gathering and System Requirements Specification (SRS) documentation.

- Gained hands-on experience with the full software development lifecycle for a web application, from initial planning to implementation.

P R O J E C T S :
